Testimonials from the previous edition:

"Having the platform to speak about inclusive mobility selection systems at the #Global2026 conference was a huge honour. Events mean that re-association to Erasmus+ has been a sector focus, however, throughout the conference I heard about inspirational work being done by peers through Turing and the concerns that this progress could be lost. While we re-learn Erasmus+, I hope that #Global2026 showed there is a lot that the UK can show to Erasmus+ with regards to equality, diversity and inclusion and Widening Participation in mobility."

"A thoroughly enjoyable and informative, high quality event, providing the opportunity to interact with stakeholders, colleagues and friends."

"The conference was a great opportunity to stay up to date on the landscape of global mobility and connect with others in the sector."

An event not to be missed.
